SENTICOL III

Étude internationale de validation de la biopsie du ganglion sentinelle dans le cancer précoce du col utérin

VALIDATION DES CRITERES DE SELECTION

Critères d'inclusion :

1. Patient must be ≥ 18 years old	<input type="checkbox"/> oui <input type="checkbox"/> non
2. With squamous or adenocarcinoma of the cervix (proven by biopsy or cone biopsy)	<input type="checkbox"/> oui <input type="checkbox"/> non
3. Stage Ia1 with lymphovascular emboli, Ia2, Ib1 IIa1, Ib2 (clinical stage) of the 2018 FIGO classification (see appendix 1)	<input type="checkbox"/> oui <input type="checkbox"/> non

	CRITERES DE SELECTION ETUDE SENTICOL 3	Identité patient (coller étiquette patient)
Version 1.0 du 01/11/2021	Investigateur :	Arc : Solène BUSSY Poste : 3484

4. Maximum diameter \leq 40 mm by clinical examination and/or magnetic resonance imaging (MRI)	<input type="checkbox"/> oui <input type="checkbox"/> non
5. No suspicious node on pelvic MRI with an exploration up to the left renal vein (according to RECIST 1.1)	<input type="checkbox"/> oui <input type="checkbox"/> non
6. ECOG performance status 0-2 (see appendix 2)	<input type="checkbox"/> oui <input type="checkbox"/> non
7. Signed informed consent and ability to comply with follow-up	<input type="checkbox"/> oui <input type="checkbox"/> non
8. French subjects: in France, a subject will be eligible for inclusion in this study only if either affiliated to, or a beneficiary of, a social security category.	<input type="checkbox"/> oui <input type="checkbox"/> non
